

As shown on page 5 of the textbook, special characters such as \$, {, ~, and % are produced with a preceding backslash. Another way to produce these characters is to use the `\verb#stuff#` command, which typesets “stuff” verbatim (including spaces and special characters) in a typewriter font. The beginning and ending # delimiters can be replaced with other non-letter characters such as ^, \, 4, or !.

Only use `\verb` to display short strings verbatim. Do not use `\verb` to change the font. For that purpose there is the command `\texttt{text}` which prints “text” in a typewriter font.

There are other commands which change the font: **bold**,
